Total Income for 1915 Was \$130,351,296, is Shown at Directors' Meeting.

common stock for the list quarter of 1915 was declared.

Total earnings of \$51,232,758, for the last three mouths of 1915 were the largest for any similar period in the history of the corporation, exceeding the previous record, made in the second quarter of 1957, by \$5,729,982.

The statement of carnings no less than the action on the divideod, was in line with popular expectations. Topscar's having ranged from \$41,809,000 to \$75,924,000, although the latter figures was regarded as rather extravagues.

though the latter figures rather extravagues. The corporation's financial position may be judged from the fact that it new has care to banks amounting to \$195.000.000, while its surplus for the last quarter of 1915 amounts to more than \$27.000.000, as against a deficit of \$2.500.000, in the curresponding quarter of the previous year.

Net Income Is \$40,853,112.

In detail the report for the last querier of 1915 shows total carnings of \$11,227,781 net income at \$12,851,112 and surplus of \$23,200,952. These figures compace with tetal earnings of \$23,710,641; net income af \$130,045,791, and surplus of \$13,945,751, at the end of the querier immediately preciding.

Total carnings for 1815 were \$128,351,285, compared with \$31,746,518, in 1916. On the basis of returns for the last quarter, of 1915, and with edges already in band, it is because the steel corporation's carnings for 1916 will run into unprocedented figures.

1916 will run into unprecedented figures.

Comparison With 1914.

In the fourth quarter of 1914, whose common dividends were altogether acceptable, total earnings were only \$16,325,115, and not income \$5,145,256, after charges and despression amounting to \$1,586,986 had been inade. For the last quarter of 1916, charges and depreciations, anounting to about \$16,255,000, were made, despite which the set income is larger by over 500 per cent, than at the close of 1914.

The outlay involved in the distancement of the remained dividend amounts to \$4,252,281, which with the regular quarterly dividend at \$15, per cent on the preferred stock makes a test dividend distribution for the quarter, of \$12,556,791.
